

# Moon Deck

## Glow Step Luminous Stair Nosing

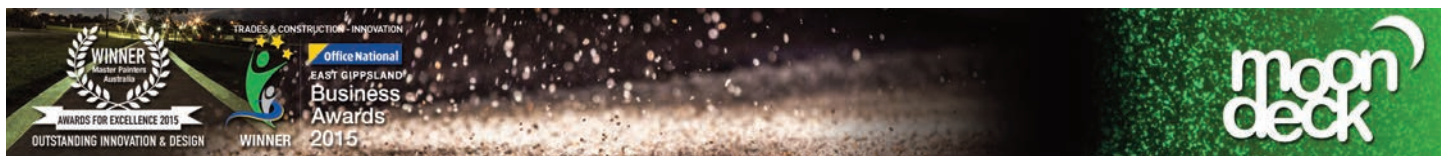

Utilising the technology used within our Moon Deck range of applications we now supply an ultra tough commercial-industrial graded long life, corrosion resistant, slip resistant composite stair-nosing that meets all current NATA certified Australian slip resistant standards AS 4586:2013 class P5 the highest standard achievable.

These stair nosings can be easily fixed directly to any solid surface and have the unique ability to be high-visual safety yellow in daylight operations but also emit a passive form of illumination in the event of darkness or emergency assistance.

Standard size lengths are 900 mm and 1200 m that can be cut to size with also the ability of predrilling for individual fixing requirements.

Orders or enquiries can be made by contacting us with your individual requirements.
